21 April 2022

## Keeping safe this winter

### Are you due for your COVID-19 booster?

A COVID-19 booster will protect you from severe illness and help prevent spreading COVID-19 to your family and friends. Even if you have tested positive to COVID-19 previously, the best protection is a vaccine booster dose to protect you from getting COVID-19 again. Infection will give you some temporary immunity, but not as long lasting as a vaccine.

You are eligible for a third (booster) dose if you are 16 years of age and it's been 3 months since your second dose of COVID-19 vaccine.

Those at greatest risk of severe illness due to COVID-19 may also be eligible for an additional booster dose for winter. You can read more here: <https://sephu.org/additional-booster-dose-of-covid-19-vaccine-approved-for-those-at-greatest-risk/>

### Flu Vaccines now available

The flu is back this winter, and so is the annual influenza vaccine! The influenza virus is expected to make an unwanted return over coming months which can mean serious illness for those who catch it.

The best defence against the flu is by getting the influenza vaccine to prevent severe illness and from spreading it to your loved ones.

To get your flu vaccine today, please call your local GP or pharmacy.

### Changes to Monash Health Vaccination centres

As we have always done with the COVID-19 Vaccination Program, Monash Health responds to the needs of the community. This includes the needs and demand for vaccination and protection against COVID-19 and ensuring equitable supply and access to the vaccine.

Now that over 90% of those eligible in the community have been vaccinated against COVID-19 there is reduced demand for vaccinations both in Monash Health's vaccination clinics and across Victoria.

From Monday 25<sup>th</sup> April, all Monash Health COVID-19 vaccination clinics will operate 5 days per week ([refer to SEPHU website](#)).

To find your nearest and earliest COVID-19 vaccination appointment, please use the Vaccine Clinic Finder: [covid-vaccine.healthdirect.gov.au/booking/](https://covid-vaccine.healthdirect.gov.au/booking/)
